

# SAP BTP - Additional Solutions

por Mayko Silva

# Breaking Down the Additional Solutions

## 1 SAP IQ

The librarian of the data world, handling massive amounts of data and helping you find exactly what you need, super fast.

## 2 SAP Adaptive Server Enterprise

The bouncer for your data, keeping it safe and always available when you need it.

## 3 SAP SQL Anywhere

For taking your data on adventures, allowing you to work with it even when not connected to the main system.

## 4 SAP Data Intelligence

The data detective, helping you understand where your data comes from, how it's connected, and what it all means.

## 5 SAP Information Steward

This is the quality control expert for your data. It makes sure your data is accurate, complete, and trustworthy. It's like having a super-picky friend who always makes sure everything is perfect.

## Additional Solutions in Action

### Analyze Sales Data

Use SAP IQ to quickly analyze years of sales data and spot patterns in your global cape business.

### Equip Traveling Salespeople

Use SAP SQL Anywhere so they can access and update data even in areas with poor internet connection.

### SAP Information Steward

Ensure that all your product data is accurate across all your systems

### Secure Customer Data

Rely on SAP Adaptive Server Enterprise to keep customer data safe and accessible, even during peak order times.

### Track Cape Journey

Employ SAP Data Intelligence to monitor each cape from raw material to happy customer, identifying bottlenecks.
